The 27th scientific conference

**«STRUCTURE, SUBSTANCE, HISTORY OF LITHOSPHERE OF TIMAN-
NORTHERN URAL SEGMENT»,**

Syktyvkar, November 27th – November 29th 2018

Organizational Committee:

Matveev Vladimir Anatolyevich – Chairman

Perovsky Igor Andreevich – Deputy Chairman

Kotik Ivan Sergeevich – Secretary

Yu.E. Ezimova, G.V. Ignatyev, I.V. Kryazheva, A.A. Kryazhev, N.A. Matveeva, A.N. Plotitsyn,
M.A. Soboleva, V.V. Ulyashev, A.N. Shadrin, A.S. Shuysky, A.N. Shadrin, A.Sh. Magomedova,
G.N. Kablis

Program Committee:

Askhabov Askhab Magomedovich - Full Member of RAS, Institute of Geology, Komi SC, UB
RAS

Burtsev Igor Nikolaevich – PhD (geology and mineralogy), Director of Science, Institute of Geology, Komi SC UB RAS

Kozyreva Irina Vladimirovna – PhD (geology and mineralogy), Science Secretary, Institute of Geology, Komi SC UB RAS

Address of Conference:

Institute of Geology Komi SC UB RAS

167982, Komi Republic, Syktyvkar,

Pervomayskaya st. 54

Phone +7 (8212) (8212) 24-53-53; fax: +7 (8212) 24-09-70, e-mail: juventus-geo@yandex.ru

!!! Due to the changes in the application rules for the RFBR competition, a participant of the conference should submit an application with an abstract of the publication (no more than 500 characters) online at the link: <http://geo.komisc.ru/mol27reg> TILL JUNE 3, 2018. The registration form also includes the possibility of sending conference materials !!!

DEADLINE: OCTOBER 1, 2018 !!!

THEMES OF THE CONFERENCE INCLUDE

ALL BASIC DIRECTIONS OF EARTH SCIENCES

Reports are submitted from young scientists at the age of up to 35 inclusive, irrespective of scientific degree.

Each participant can present one author's report and to be co-author of other report. There are two types of reports:

1. Oral. The duration of the report is 15 minutes (+ 5 minutes - answers to questions). The report is accompanied by a computer presentation.
2. Poster - 5 minutes. During the session one of the authors of the report should be near the poster. The size of the poster is not more than 120×120 cm. The poster report should contain a title, which includes the title of the report, name of the author(s), the place of work (study). It is necessary to specify the department, the course (for students), and the name and place of work of the supervisor.

At the end of the conference, the best oral and poster presentations will be selected, which will be recommended for publication in the journal, included in the list of the Higher Attestation Commission (Vestnik of the Institute of Geology of the Komi Science Center, UB RAS).

It is planned to publish the conference proceedings as a collection of articles by the beginning of the conference.

Materials, submitted for publication, must undergo scientific editing (by the supervisor, head of the department). Materials of mineral and resource themes should be accompanied by an act of expertise.

To improve the skills of young participants, it is planned to conduct popular scientific lectures by leading specialists in the field of basic sciences.

The Organizing Committee invites sponsors to mutually beneficial cooperation and participation in the conference. The list of persons and organizations, wishing to take part in financing the events of the conference, will be published in the Proceedings. During the conference, the sponsors will be given an opportunity to demonstrate and advertise their materials.

Main requirements for the reports

The volume of materials is up to four A4 pages, including drawings and tables.

Illustrations and text are represented as separate files.

Texts are typed in WinWord (any version) in the format *.doc or *.rtf font TimesNewRoman Cyr, size 12, alignment in width, fields on all sides 2.5 cm. The title of the report is written in lower case letters, aligned to the left. The first line in the text of the report is indentation. References to the literature are in square brackets in figures. Symbols in the text - Symbol. Intervals: between the title of the report, author's name, organization name, city, e-mail and the text of the report is double, in the text - one and a half.

Example of the text

THE NATURE OF THE MASSIVE STRATA OF PECHORA URAL CARBONIFEROUS LIMESTONE BRECCIA

I. I. Ivanov

IG Komi SC UB RAS, Syktyvkar

ivanov@geo.komisc.ru

When studying limestone breccias of the Carboniferous Pechora Urals, researchers first of all pay attention to their most mysterious varieties forming thick strata. According to their morphological features, they refer to the massive limestone breccias of A. I. Eliseev's classification [1].
